## **THREESOME**

by **LIGHTWORKER\*T**

**1** Lightworker\*T, I am, look at me / I´m bringing you the light, love and peace tonight / Lightworker\*T, it´s my name, it´s me / let´s celebrate this night, here´s my band of light / I´m giving you a joyful time and all the marvellous things you´re dreaming about / I´m offering you a clearing session and giving back to you what´s lost before / **Lightworker\*T ... / let´s celebrate this night, sharing all the light** / love is the light that recovers you and me, your love is still enough for you to be / **Lightworker\*T, it´s my name, it´s me**

**2** read it in my mind, stop being blind / read it in my mind and you will find yourself, yourself / can you imagine this is possible / can you imagine this is really true / I swear I am your mirror / and so the same for me is you and you and you and you too / **read it in my mind ...** / make hay while the sun is shining / make love in the moon light, all through the night / separate wheat from the chaff / can you really bring it right, come on and fight for the light and / **read it in my mind ...**

**3** I see you, I see you as a great friend of mine / I need you for being me a helping hand / **here you are, it´s the key to my heart** / I know you, you´re turning rain to a sunny day / I feel you supporting me in every way / **here you are, it´s the key to my heart** / I call you, you´re listening to what I say / I love you and for this gift I want to pray / **here you are, it´s the key to my heart**

4 I'm sitting in the kitchen, the lady 's making tea / and I, I am just being me / the child is dancing in the sunshine, the dog is staring at the fridge / and I am lost in sounds while playing didge / black birds I can see in colours, clouds pink painted in the sky / and I enjoy the time that 's passing by / **thoughts are free, I'm dreaming / my destiny I see / my philosophy is just being / feel the roots in me, I love to be, just to be** / I'm strolling through the garden, you ask me what to do / And I fall down and snuggle up to you / let's all stroll now through the gardens, don't ask what to do / fall down, fall down, fall down and snuggle up to you / **thoughts are free, I'm dreaming ...**

5 she came too late and all she said, I am sorry / I'm just a girl, that's why I'm late, this is boring / and I should know she loves me so, for me it's foreign, isn't it boring / **today it's hard to be a part of a man's world / what is my heart, an unconditionally loving girl** / another said I meditate, I'm full of power / but first of all before I start I need a shower / and then a break and then a drink, it takes an hour / **today it's hard to be a part of a man's world / to open up, give all my love to the right pearl** / what's up with you, what will you do / is this love true, is it true, true, true / yes, she said / and all I do I do for you cause you're a singer / the only thing I want a ring right on my finger / today is yes, yesterday no, what is tomorrow / I'm out of cash just want your sex, nothing but sorrow / **today it's hard to be a part of a man's world ...**

6 I'm doing, I'm doing, I'm doing what I can / I'm working, I'm working for a funny firm / I'm sweating, I'm sweating, I'm sweating day and night / I'm fighting, I'm fighting to bring in some more light / **but I ask myself, where I stand** / I'm talking, I'm talking, I'm talking to the chiefs / I'm blocking, I'm blocking some of these crazy beings / I'm careful, I'm careful not to be harassed / I'm praying, I'm praying to find a better base / **and I ask my self, where I stand** / don't depress the people that you need / you are to know who you really feed / don't kill the people that you feed / consciousness is really what you need

**7** this is just another day, living my spiritual way / and all I wish it is / and all I wish it is / and all I wish it is always being right / I`m going on and on, I pay attention to what is left, to what is right, to what is front and rear / so come on with me, I`m waiting for you, we are creators of reality / **this is just another day ...** / I`m going on and on, singing another song for all the people of the universe / singing with me, we`ve got the power to manifest our love and light on Planet Earth / **this is just another day ...**

**8** watching how the birds fly in the middle of the blue sky / geckos running over stones, there`s no ringing of mobile phones / **chillin` under palm trees, white sands to our knees / chillin` on the palm beach, listening to the virgin`s speech** / turtles coming once a year, after months babies are growing here / in the shells of the deepest ground we can hear the paradise sound / **chillin` under palm trees...** / in the water you can choose the fish for tonight`s fresh organic dish / a coconut falls on your head, it`s very seldom, don`t be afraid / **chillin` under palm trees...** / sleeping there without a tent, me and the moonshine on the sand / island where I can find my peace, it`s Crete to the south of Greece / **chillin` under palm trees...**

**9** sometimes I think I`m **Lenny Kravitz** / oh no, I think it`s true / oh Lord, I think I`m **Lenny Kravitz** / I need some loving help from you / oh Lord, I think I`m **Lenny Kravitz** / I`m sure, it`s really true / sometimes I think I`m **Lenny Kravitz** / oh Lord, I need some help from you

**10** won`t you leaving out of the blue / you told me yes, that will I do / so I loved you, what`s up with you / you want a child or may be two / **it was pure love for you** / so giving my love to you / has blown away your blues / so I could see your shine / and since that time I wish you`re mine / **but I love you, what can I do / if there is no love inside of you / but I love you, what can it help / if you are not even in love with yourself** / I was giving you so much / it was cleaning you from all your dust / I was giving love much too fast / you had to leave me, it was a must / **but I love you, what can I do...** / won`t you love yourself too / sending pure love to you

**11** soon, soon goes the sun / fast, we all have to run / laid back, it grew up  
to shame / now we´re part of the game / **we want the light / starry and  
bright** / quick, we´re doing our trick / strong we´re walking along / we all,  
we´re stars here on earth / and stars they also rebirth / **we want the light /  
starry and bright** / hard, to keep ground under feet / so long we were praying  
for it / gone, yesterday it´s gone / we chill, waiting for the next morning / **we  
want the light / starry and bright**

**13** wenn du glaubst, du spüest mit mir, dann spü i mi a mit dir / wenn du
